**Roca is delighted to present its new bathroom portfolio.** The new products emphasise Roca's commitment to contemporary and innovative design, yet are functional and have the versatility to meet individual needs. Relaxation is the aim of this portfolio, so that you can leave behind the day's worries and lay back in an oasis of peace and privacy. Over the following pages, we will show you the latest bathroom trends created by top designers and architects. This is the place to find all the latest design trends and stylish collections for the bathroom by Roca.

## 076 **Water in motion.** Technology and design go hand in hand.

## 086 **Bathing Solutions.** A new lifestyle. 088 Baths. 096 Spas. 098 Cabins. 102 Columns.

## 108 **Shower solutions.** 110 Walk-in showers. 114 Shower trays. 118 Screens.

# Stylish bathrooms

Current bathroom trends favour versatile products for all bathroom shapes and sizes. With this in mind, Roca's creative team have worked on designing functional and flexible proposals to meet these trends, whilst using technology designed to protect our environment.

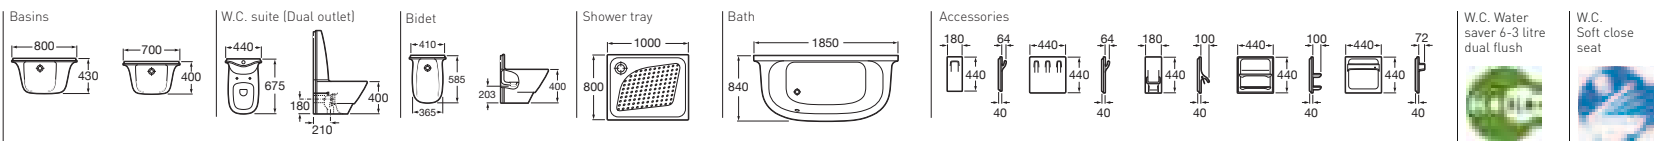

**Frontalis** is born out of a desire to make the privacy of the bathroom a peaceful place. This bathroom collection is a full range of bathroom fittings and taps, with a design characterised by curves which mimic the rhythmic and harmonious flow of water. The different products of the collection blend into the wall which supports them creating a modular system able to adapt to achieve a different result in every situation. **Frontalis** is a revolutionary bathroom solution, a return to the basic senses. This can be seen and felt in the organic and curved forms of each piece.

# Frontalis

Designed by Belén & Rafael Moneo

# Frontalis

Available in White.

For further details on this range, please refer to our **Evolution** brochure.

For co-ordinating brassware see page 78 or our **Book of the Tap** brochure.

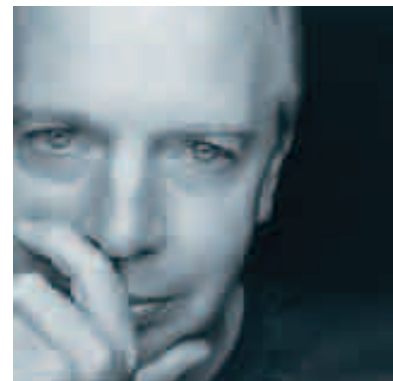

It's curves move like water following a harmonious, serene and natural flow.

The lack of straight lines gives way to a series of curves that mimic the harmonious flow of water. **Frontalis** is like a part of nature in the bathroom, designed to bring nature closer to us and fill our private space with peace and tranquillity.

In these compact, clean and simple pieces, a prism is the key shape. This is the **Element** suite by Roca, a true reflection of the creative spirit of its author, architect David Chipperfield. The collection, with a clear geometrical stamp, goes for a contained look, using decidedly chunky pieces to convey a distinctive, radical style with great authority and presence. Maximum expression with minimum pieces.

# Element

Designed by David Chipperfield

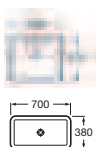

The collection includes a variety of products to create an aesthetically pleasing bathroom space.

# Installation systems for

Roca offers several support brackets to allow for the convenient installation of wall-hung products. As a guide, if the products are to be installed against a wall that is less than 150mm thick, one of the following brackets should be chosen according to the type of product. The **Duplo** range is now also available in a low height version to allow for installation under a window. For corner spaces, use the **corner fixing kit** together with either **Duplo** W.C. bracket to maximise your bathroom space.

The bathroom world is full of high quality pieces, capable of meeting many different needs. The basin increasingly signifies the overall look of the bathroom with other products adding to the style of the space. With an extensive basin range, Roca not only offers basins with each bathroom collection, but also basins designed to be wall-hung, semi-recessed, on and under countertops. Roca has focused on being able to offer furniture with dynamic and versatile applications. For this reason, modular systems and complimentary fittings are becoming increasingly popular in everyday life.

Roca invites you to discover an exclusive new concept based on unique basin and unit combinations. These integrated solutions, which display striking simplicity and natural flair, are the result of a fusion of designs and needs in the bathroom.
